## **TEAMSTERS STATEMENT ON STATUS OF UPS FREIGHT**

(WASHINGTON) – Our members at UPS Freight rejected the tentative agreement in a vote on October 5. The Teamsters National UPS Freight Negotiating Committee went back to the table with the company to address member concerns. Unfortunately, the company refused to address a number of key issues for our members. The company presented the negotiating committee with a last, best and final offer on October 24 that our members will vote on beginning November 7 with the results announced on November 11.

This company made the decision to give a last, best and final offer and to stop taking freight. This could all have been resolved by the company addressing the key issues at the negotiating table.
